

ROCAPS 2000™

Recovery Operations Collection And Payment System

ROCAPS 2000™ is a versatile, cost-effective program that electronically manages information for multiple applications.

In 1996, RRFB Nova Scotia developed ROCAPS 2000™ to administer Nova Scotia's *Deposit-Refund Program for Beverage Containers*. ROCAPS 2000™ enabled the RRFB to issue payments to vendors that collect, handle and process recyclables.

Today, ROCAPS 2000™ is more than a tool to manage the beverage container system. ROCAPS 2000™ now handles three programs administered by RRFB Nova Scotia (beverage, tires and paint), with the capacity to electronically process more than one million field transactions and over 15,000 payments to vendors annually!

Since 1996, the RRFB has identified trends in field operations and has enhanced the functionality of ROCAPS 2000™ to expand the system's efficiency, reporting capability and data integrity.

ROCAPS 2000™ has proven to be a unique and powerful tool for administering waste management strategies and has great potential for other applications.

ROCAPS 2000™ at a Glance

■ Multiple Program Versatility

Currently in Nova Scotia

- Beverage (deposit/refund)
- Tires (environmental fee)
- Paint (environmental fee)

■ Checks and Balances

Special data collection equipment is used to scan unique bar codes identifying companies, containers and materials. Rocaps 2000™ conducts over 100 tests on incoming information to maintain data integrity and ensure accurate and timely payments to all vendors.

- **Automated Exception Handling**
Special tools streamline the correction of errors in field data.
- **Near Real Time Information and Reporting**
Information current to last processing of field data.
 - Process data as often as required.
- **Over 30 Reports Included**
Collection statistic reports for any date range available by:
 - Province
 - Region/County
 - Vendor
 - Product
 Fraud prevention
 Empty container tracking
 Audits
 Bills of lading
 Transaction receipts
 Payment details
 Remittances
 Custom reports
- **Paperless Accounting System**
Electronic Funds Transfer for payables.
 ROCAPS 2000™ creates 30,000 accounts payable invoices (over one million field transactions) annually.
 That is more than 15,000 payments with no paper!
- **Fully integrated with AccPac Accounting Corporate Series**

RRFB Nova Scotia

RRFB Nova Scotia was established in 1996 as a not-for-profit organization to administer components of the province's *Solid Waste-Resource Management Strategy*.
